PHOENIX ARIZONA is where we will be!

Downtown Phoenix

When the business day ends, the fun begins in downtown Phoenix. This is where you'll find sports arenas, live music, rooftop lounges, museums, theaters, art galleries and more than 100 restaurants. Phoenix's perpetual sunshine might tempt you to find a secluded resort and spend all your days sipping margaritas next to the swimming pool. Don't give in. Exploring our city and finding things to do in Phoenix's desert horizons will broaden yours.

Top Phoenix Attractions

Grand Canyon and Sedona ▷

Journey through stunning Arizona landscapes. Visit the Grand Canyon and explore Sedona; admire the Red Rock landscape around Sedona, drive through the Sonoran Desert and visit part of the Navajo Nation and experience the Southwest's natural beauty.

Desert Botanical Garden

The winding paths of this 50-acre desert garden showcase a fantastic variety of arid plants, from towering saguaros to delicate blooms. This beautiful landscape is also the backdrop for the garden's seasonal events. ▽

Heard Museum

The tradition, culture and history of 22 regional American Indian tribes converge in the Heard Museum's immersive exhibits and authentic art shop. Through art and cultural objects, the museum's ongoing exhibits tell the stories of native people of the Southwest, from early history to powerful memories of boarding schools.

Roosevelt Row

The creative beat of the city's urban heart is in Roosevelt Row, home to galleries, mural-splashed business walls and a monthly art walk.This arts district is a prominent stop for visitors and the downtown community along the First Friday self-guided art tour.

South Mountain Park and Preserve

The skyline views and Sonoran Desert flora aren't the park's only perks. Keep a lookout for ancient petroglyphs carved into the rocks.

Old Town Scottsdale

Southwestern arts and hip eateries line the streets of Old Town, a popular destination for Greater Phoenix shopping and nightlife. If you're hunting for a souvenir, you'll find your fill of old-fashioned flair (think cowboy hats and turquoise jewelry) alongside upscale art galleries and trendy boutiques in the Fifth Avenue district. The area is also a hot spot for after-dark dancing, lounging and libations.

Frank Lloyd Wright's Taliesin West ▷

Tours of Taliesin West, Frank Lloyd Wright's winter home, give insight on how the masterful architect was inspired by the desert surroundings. Visitors walk through rooms, gardens, walkways and Wright's entertainment pavilion on the grounds while learning about his organic architecture.

Phoenix Art Museum

The Southwest's largest fine art museum features a collection of contemporary work and global masterpieces.

INVITATION FROM THE PROGRAM CHAIRS

We invite you to attend the 2017 AAFPRS Annual Meeting. This meeting is all about new ideas and sharing them with you. We are excited to include talented members of our Academy who may never before have had the opportunity to present their research and results in this venue. You will also hear seasoned opinions from surgeons with years of practice.

We have three full days featuring rhinoplasty, aging face, and non-surgical techniques. There will be an international surgery panel on Friday and a microvascular forum held on Saturday, as well.

It's going to be an exciting and educational meeting for all with plenty of new pearls to take home with you. Some of the exciting sections this year include:

o Wednesday section for new surgeons
o Just starting practice? Speakers share their pearls of wisdom and experience on how to succeed and navigate through these first few years.
o Interesting panels, topics, and abstracts section
o Many new speakers presenting novel ideas
o Microvascular Workshop
o Business section focusing on how to run the office
o Focused rhinoplasty, aging face, emerging trends, and injectable sessions
o Live injection demos from experts in the field

We hope that you will all join us in Phoenix this fall. The weather is beautiful this time of year and we will all enjoy each other's company as we learn the latest in facial plastic and reconstructive surgery.

INVITATION FROM THE MEETING DIRECTOR

The Board's charge to the Annual Meeting Program Director was to partner with Academy staff to improve the structural organization, efficiency, and financial solvency of our annual meetings, while creating institutional memory.

After hearing from members, my overriding philosophy has been one of inclusiveness (involving more members who had never been asked to speak), a reduction in unnecessary spending, and maximizing attendees time/educational opportunities.

To that end, beginning with the 2016 Annual Meeting in Nashville and continuing at this meeting in Phoenix, we have included more new speakers and many who are rarely asked to speak. We have reduced the number breakout rooms and consolidated the essence of presenter's expertise into several concentrated and topic related forums. We have also improved our afternoon practice management program, added more videos and time for new innovations/research presentations.

New for 2017 is a full day program on Wednesday designed to address the complexities of practicing facial plastic surgery in today's world. It is for those about to begin practice as well as those who are already in practice. We have never done anything like this and it should be very informative. Don't miss it; you can come and go from committee meetings.

Going forward, we will continue to evaluate and implement your feedback; keep them coming. We will work to make the programs as educational as possible while placing a high priority on your ROI for your time away from practice!

ACCREDITATION AND CREDIT DESIGNATION
The Educational and Research Foundation for the American Academy of Facial Plastic and Reconstructive Surgery is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The AAFPRS Foundation designates this live activity for 25.5 *AMA PRA Category One Credits™*. Physicians should claim credit commensurate with the extent of their participation in the activity.

LEARNING OBJECTIVES
At the conclusion of the general sessions, participants should be able to:
1. Compare and contrast surgical techniques and approaches across the national and international spectrum of facial plastic and reconstructive surgery.
2. Review and apply state of the art decision making tools when addressing surgical and non surgical dilemmas in patient care.
3. Assess new techniques and technologies that could advance the surgical and non-surgical care of your patients.
4. Develop or improve management plan for your new or existing practice that enhances both patient care and practice productivity.
5. Consider new research questions and/or collaborations.
6. Identify, avoid and treat complications, when necessary.

TARGET AUDIENCE
The meeting is offered for continuing medical education of medical students, residents, fellows, and practicing physicians (MDs and DOs) in the field of facial plastic and reconstructive surgery. The program is for physicians with all levels of experience and covers aesthetic, reconstructive, and congenital issues relevant to this specialty.

WEDNESDAY, OCTOBER 25, 2017

Navigating the Business of Starting and Running a Practice (non-CME)
This is an interactive program designed to address the many issues encountered as one considers what type of practice to establish as well as issues that one faces after beginning practice. The program will have presentations, panel discussions, Q/A, and round table discussions. Speakers and panelists will come from several age categories so that a broad perspective and experience can be shared between all attending. The first portion of the program will center on decisions prior to beginning practice. The second portion will cover issues one faces after being in practice the first few years.

CME EVENING EVENT: INJECTION COURSE

6:45pm-8:45pm, Camelback Room
Moderator: Sam M. Lam, MD
Non-surgical rejuvenation has become a critical component to a facial plastic surgeon's practice today. Advanced techniques and philosophies flourish in today's competitive landscape. Use of cannulas, periorbital filling, understanding the importance of outer facial collapse are some of the advanced topics that will be discussed and demonstrated in this live injection workshop. You should not miss this multi-specialty seminar that will transform your clinical practice.

Introduction Sam M. Lam, MD
Live Injection Todd Hobgood, MD
Live Injection Jody Comstock, MD

Phoenix is called the Valley of the Sun for a reason! Beat the heat with a refreshing dip in the hotel's pool or soak up some rays on our spacious sundeck.

Experience Sheraton Grand Phoenix--a cultural oasis, redefining the concept of an urban hotel. Located minutes from Sky Harbor International Airport, this Phoenix hotel is at the heart of the city.

Rising an extraordinary 31 floors, the Sheraton Grand Phoenix is just steps away from more than 40 restaurants, boutiques and seasonal downtown entertainment. Take a short ride on the city's light rail system to nearby university and major league sports stadiums for games and concerts.

Meeting Site and Hotel Information

The meeting will be held at the
Sheraton Grand Phoenix
340 North 3rd Street
Phoenix, AZ 85004
Reservations (800) 325-3535

Special AAFPRS rate through October 4, 2017: $215
Make sure you mention that you are attending the AAFPRS meeting.

Utilizing the AAFPRS Group Room Block

AAFPRS has secured a block of discounted sleeping rooms at the Sheraton Grand Phoenix. Staying at the AAFPRS Host Hotel offers engaging networking opportunities and, especially this year, provides great convenience for registrants by having their sleeping rooms and all the conference meeting space/activities on the same property. Also, by staying at the AAFPRS host hotel, you are helping your Academy reduce the overall conference costs related to producing the Annual Meeting--savings that are then passed back on to you by keeping registration fees lower and enabling AAFPRS to negotiate favorable hotel rates in future cities. Thank you!

AAFPRS MEMBERSHIP AND VIDEO LEARNING CENTER

Make sure you come by the AAFPRS Membership booth to peruse our publications and learn more about our humanitarian programs. You will be able to see, first-hand, what all the buzz is about LEARN, the Academy's educational portal.

The popular AAFPRS Video Learning Center will be in the Exhibit Hall and will be open to all meeting attendees. The John Dickinson Memorial Library has over 275 procedural and instructional videos, which you can preview at the meeting. You may purchase these DVDs on-site and receive a 10% meeting discount.

A brand new rhinoplasty video, Secondary Rhinoplasty Using Costal Cartilage and Microfat Infused Soft Tissue Augmentation, by Dean Toriumi, MD will be available at this meeting. Some new releases include Lasers in Facial Plastic Surgery by Drs. Andrew Campbell and Kevin Duplechain; Extended SMAS Facelift by Stephen Perkins, MD; and Treating the Brow, Upper and Lower Eyelids, Midface as One Aesthetic Unit, by Richard Anderson, MD.

Come by--and see for yourself--why everyone is talking about the AAFPRS Video Learning Center.

The exhibition will feature nearly 70 companies displaying their latest products and services. Morning and afternoon breaks, lunches, and the Thursday Welcome Reception will be held in the Exhibit Hall. Please come and support our loyal exhibitors.

ABOUT THE AAFPRS

ITS HISTORY

The American Academy of Facial Plastic and Reconstructive Surgery (AAFPRS) was founded in 1964 and represents more than 3,000 facial plastic and reconstructive surgeons throughout the world. The AAFPRS is a National Medical Specialty Society of the American Medical Association (AMA). The AAFPRS holds an official seat in the AMA House of Delegates and on the American College of Surgeons board of governors.

ITS MEMBERS

The majority of AAFPRS members and fellows are certified by the American Board of Otolaryngology-Head and Neck Surgery, which includes examination in facial plastic and reconstructive surgery procedures, and the American Board of Facial Plastic and Reconstructive Surgery. Other AAFPRS members are surgeons certified in ophthalmology, plastic surgery, and dermatology.

EVALUATION AND CME CREDITS

With the launch of the AAFPRS Foundation's LEARN (Lifelong Educational and Research Network) in 2013, we now have the capability of capturing meeting evaluation responses and award CME credits to participants on line at www.aafprs-learn.org.

Please note that in order to access your personal LEARN account, you will need to know your AAFPRS log on ID and password. If you do not know your current AAFPRS ID and password, please e-mail Karen Sloat at ksloat@aafprs.org and she will provide you with the necessary information to complete your evaluation and claim your CME credits. Knowing this information ahead of time will avoid delay in obtaining your credits on-site.

ABOUT THE AAFPRS FOUNDATION

In 1974, the Educational and Research Foundation for the American Academy of Facial Plastic and Reconstructive Surgery (AAFPRS Foundation) was created to address the medical and scientific issues and challenges which confront facial plastic surgeons.

The AAFPRS Foundation established a proactive research program and educational resources for leaders in facial plastic surgery. Through courses, workshops, and other scientific presentations, as well as a highly respected fellowship training program, the AAFPRS Foundation has consistently provided quality educational programs for the dissemination of knowledge and information among facial plastic surgeons.

In the early 1990s, FACE TO FACE humanitarian programs were established so that AAFPRS members could use their skills and share their talent in helping the less fortunate individuals here and abroad.

- FACE TO FACE: International brings AAFPRS members to third world countries where they treat children with facial birth defects and anomalies.
- FACE TO FACE: The National Domestic Violence Project allows AAFPRS members to perform surgeries on survivors of domestic abuse here in the United States, who have received injuries to their faces.
- The newest member to FACE TO FACE is Faces of Honor. This program offers free surgical care for soldiers who have been injured in the line of duty.

Registrants also understand that operating rooms and health-care facilities present inherent dangers. Registrants waive any claim against the Academy or Foundation for injury or other damage resulting in any way from course participation. This educational program is not designed for certification purposes. Neither the AAFPRS nor its Foundation provides certification of proficiency for those attending.

When is a filler not an injectable?

To look youthful, an aging face needs volume in the right places. This means envisioning your outcome, and then using appropriate skills and material to make it happen.

Frequently, however, a licensed clinician simply injects the patient with filler. The material is eventually absorbed – sometimes unevenly – and injections must be repeated.

However, with your surgical skills, you can give your patients a *permanent*, symmetrical solution that looks and feels more like natural bone structure. One that's an excellent foundation for face lifts or wrinkle removal.

Choose *Conform*™ facial implants as the ideal midfacial filler, or select from assorted chin implants for an attractive jaw line. Your patients will enjoy the lasting aesthetics – your practice will enjoy the loyalty and referrals.

Benefit from your surgical edge.
