Our Temporal Shells Speak Volumes

If your patient presents with overly hollowed temples, look no further than our Temporal Shell implants.

They provide the necessary volume to fully augment the temple area and feature a shape designed to blend without palpable margins.

The Standard version matches the typical skeletal borders of the temporal region, while the Extended version provides volume along the entire side of the forehead.

Made of ultrasoft silicone, the Temporal Shell ensures flexibility and is easily customized with scissors. Moreover, it doesn't resorb, making it a predictable, permanent solution for excessively concave temples.

AAFPRS MEETINGS DIRECTOR

The AAFPRS Advances in Rhinoplasty courses have continuously led the way in quality and innovative rhinoplasty education for more than fifty years. And the 2019 program is no exception. This year we have convened over 240 speakers from 32 countries around the globe. Advances in Rhinoplasty is truly is the most comprehensive rhinoplasty education available in the world today!

This year's program will not only be an international gathering of the world's leading expert speakers, but it will also bring together the most engaged and inquisitive rhinoplasty attendees, who will exchange ideas and experiences that cultivate the highest quality rhinoplasty care.

We look forward to seeing you April 4–7, 2019, for

"THE PREMIER RHINOPLASTY COURSE"

AAFPRS ADVANCES IN RHINOPLASTY!

Phillip R. Langsdon, MD
AAFPRS PRESIDENT

ABOUT THE CONFERENCE

Target Audience
This activity has been designed to meet the educational needs of practicing physicians, residents and medical students in the fields of facial plastic and reconstructive surgery, oculoplastic surgery, otolaryngology, plastic surgery, and rhinoplasty, and other healthcare professionals involved in the surgical and non-surgical treatments designed to restore, enhance and rejuvenate the face. This program is developed for physicians at all experience levels and covers aesthetic, reconstructive and congenital issues related to this specialty.

Learning Objectives
At the conclusion of this activity, participants should be better able to effectively:

- Discuss principles in fundamental rhinoplasty
- Explain recent advances and cutting-edge material in modern rhinoplasty
- Debate controversial issues in rhinoplasty and apply the information presented in practice
- Utilize new and innovative technical pearls for complex problems and deformities
- Delineate sound principles in functional, ethnic and reconstructive rhinoplasty
- Utilize new and emerging techniques to alter nasal shape and contour in a safe and predictable fashion.

Accreditation & Credit Designation
The Educational and Research Foundation for the American Academy of Facial Plastic and Reconstructive Surgery (AAFPRS Foundation) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The AAFPRS Foundation designates this live activity for a maximum of 37 *AMA PRA Category 1 Credits*™. Physicians should claim only the credits commensurate with the extent of their participation in the activity.

CME Certificates
A Continuing Medical Education (CME) Certificate is available to registered attendees who complete the online CME evaluation through the AAFPRS LEARN Portal; instructions will be provided during and after the conference. If you have any questions, or need assistance, please contact Karen Sloat at ksloat@aafprs.org.

Disclosure Policy
The AAFPRS Foundation strives to ensure balance, independence, objectivity and scientific rigor in all of its educational activities. As such, the AAFPRS Foundation requires all instructors, planners, and other individuals in a position to control or influence the content of an activity to disclose all relevant financial relationships or affiliations. All identified conflicts of interest must be resolved and the educational content thoroughly vetted by AAFPRS for fair balance, scientific objectivity, and appropriateness of patient care recommendations.

A link to speaker disclosures will be provided to registered attendees prior to the conference.

REGISTRATION POLICIES, TIPS & INFORMATION

Registration
Individuals must register and pay the appropriate fees in order to attend any portion of this meeting.

Check-In & Badge Pick-Up
Upon arrival, please stop by the Registration Desk to receive your name badge and other meeting materials. If you have a question, concern or need assistance during the conference, please also stop by registration. AAFPRS staff is available to help you locate sessions and answer any questions you may have.

Name Badge Policy
Name badges are required for admission to all AAFPRS Advances in Rhinoplasty events, including education sessions, hands-on workshops, social/networking events, and the Exhibit Hall. Please wear your badge so that it can be easily seen at all times. Lost badges should be reported to the Registration staff.

It's also your electronic business card—name badges will include a QR code that contains your contact information. It is your choice whether or not to allow exhibitors to scan your badge to obtain this information.

GET CONNECTED. JOIN THE CONVERSATION.
Get real time news and updates from facial plastic and reconstructive surgery communities by liking us and following us on social media. We encourage you to continue the conversation with your social media connections by highlighting positive experiences with the **#AAFPRSRhino2019** and **#AAFPRS** hashtags.

Code of Conduct
Advances in Rhinoplasty is convened for the purpose of professional development and to facilitate collaboration, the exchanging of ideas, sharing best practices, and enhancing surgical outcomes. The AAFPRS Foundation expects that everyone who participates in this event will be respectful of other attendees, industry partners, spouses or guests, hotel employees (all others they meet), and will alert AAFPRS staff or security of any dangerous situations or anyone in distress. We remind meeting participants that all professional ethics and norms apply as standards of behavior and interaction at this event.

Photography Waiver/Release
AAFPRS may secure a Photographer/Videographer to take photos, document and capture official conference events and activities, including, but not limited to, educational sessions, networking breaks and receptions and the Exhibit Hall. These photos are for AAFPRS use only and may appear on the Academy's website or in newsletters, conference brochures, social media outlets, and/or other promotional materials.

By registering for and attending this event, you understand and agree that your image, likeness, name, voice and/or words may be captured in photographs or recordings taken during the meeting and grant AAFPRS unrestricted permission to use, publish, display, reproduce, copy and distribute such image, likeness, name, voice and/or words in AAFPRS-related publications, including social media and the website. Please note that such photos/recordings will not include actual content, slides or video contained within speaker presentations.

The Academy does not permit photography or the electronic capture of speakers, scientific sessions and posters, presentation slides, and/or booths in the Exhibit Hall, without the express written consent of AAFPRS, or the speaker/author and/or exhibiting company.

No-Recording Policy
To protect the confidential, proprietary or personal information and personal images or voices at all AAFPRS Foundation training events, AAFPRS prohibits the unauthorized or secret recording use of any device to capture images or voices, regardless of whether in person, by telephone or by other means, such as videoconferencing, Facebook Live, screenshots, chats or in writing, that is not approved by the AAFPRS Foundation.

Privacy & Access to Your Information
Your privacy is important to us. Our Privacy Policy describes what information we collect, how it is used, how you can control the use of your data and certain other matters. Our privacy policy can be found on our website, www.aafprs.org. Please contact us at info@aafprs.org with any questions or concerns about our Privacy Policy or any communications you receive from us.

AAFPRS and *Disney's Coronado Springs* Resort will provide one another with access to basic conference attendee/hotel guest reservation information pertaining to registered attendees/hotel guests (e.g., attendee/guest names and number of hotel room nights). This exchange of information assists with event planning and enables AAFPRS to ultimately secure favorable discounted hotel rates for attendees. By registering for Advances in Rhinoplasty 2019 you consent to such sharing of information.

Badge Scanning
Your name badge will have a QR code that contains your contact information, including your email address. You may present your badge to be scanned by exhibitors so that they may provide you with information on their products or services. By giving an exhibitor your badge to scan you are giving them consent to contact you. It is your decision whether or not to present your badge for scanning; once you have shared your information with an exhibitor its use will be governed by that company's policies.

SPECIALTY WORKSHOPS

1:30 PM–4:30 PM | Coronado A–C
Cadaver Dissection Lab
Additional Fee Required. See page 33 for pricing.

Back by popular demand! The cadaver lab provides a unique, hands-on opportunity to gain first-hand experience practicing and perfecting your surgical rhinoplasty techniques.

This integral component of the Advances in Rhinoplasty course offers instruction from expert faculty, who will proctor a small-group, high faculty-to-student ratio laboratory with fresh specimens. Selected faculty will perform prosections demonstrating specific techniques, and students will have to opportunity to try these on their own with faculty guidance. Basic rhinoplasty instruments will be provided.

Space is limited! This workshop is limited to 50 people. Secure your spot–register today!

2 PM–4 PM | Durango
Dermal Filler Live Injection Demonstration

Nonsurgical and minimally invasive techniques have become a critical component to a facial plastic surgeon's practice.

Join us for live injection workshop, featuring two experienced injectors who will demonstrate their techniques for the use of dermal fillers for nonsurgical rhinoplasty and lip shaping. Patient evaluation, anatomy and techniques for safe and successful injections will be discussed. The audience will be able to pose questions to the injectors during this interactive session. This CME session will feature the off- label use of dermal fillers in live patients.

TRAVEL & TRANSPORTATION

There are several ways to get from the Orlando International Airport (MCO) to Lake Buena Vista, Florida, and to Disney's Coronado Springs Resort. Please refer to the information below for details on ground transportation and parking.

Air Travel

Orlando International Airport (MCO) provides service to the Central Florida area and Lake Buena Vista. This airport offers hundreds of daily inbound and outbound flights from around the globe. Feel free to book your preferred airline provider when making your travel plans.

Upon arrival at the airport, there are several ground transportation options to get you to and from the airport and the resort.

Disney's Magical Express

Disney's Magical Express provides complimentary roundtrip transportation and luggage delivery for guests of Disney's Coronado Springs Resort. Bypass the busy baggage claim area and avoid the hassle of having to find transportation to the resort... Disney's Magical Express will transport you from the Orlando International Airport to the resort and deliver your bags to your room.

And when you're ready to leave the resort, you may take advantage of Disney's complimentary Resort Airline Check-In Service for participating airlines. This service allows you to check your luggage and receive your boarding pass the resort so there is no need to check-in at the airport. Participating Airlines are Alaska, American, Delta (US domestic flights only), jetBlue, Southwest and United.

Please call (407) 827-6777 to book your Magical Express reservation. We strongly recommend booking reservations at least 30 days prior to arrival.

Learn more about Disney's Magical Express, airline check-in from the resort, or baggage delivery services, at www.rhinoplastymeeting.org.

Ground Transportation

Taxis & Shuttles

Taxis and shared-ride shuttles also offer easy and convenient transportation to and from the airport. Fare from MCO to Lake Buena Vista is approximately $45–$55 (excluding tip).

App-Based Rideshare Services

Orlando International Airport also allows travelers the option to utilize rideshare services, such as Uber and Lyft. Drivers will pick up passengers on the Arrivals Curb (Level 2).

Parking

Complimentary self-parking is available at Disney's Coronado Springs Resort for AAFPRS Advances in Rhinoplasty attendees. Valet parking is not available.
